CHRISTMAS TREES

## **Make Halloween Silhouettes to Hang from Windows**

Silhouettes are fun and easy to make. They are also a great way to decorate your windows!

### **MATERIALS NEEDED:**

- ☐ Printer
- ☐ Scissors
- ☐ Scotch and double-sided tape
- ☐ Black poster paper
- ☐ Wax paper

Print out a Halloween silhouette, you can find some online by doing a Google search for Halloween silhouettes. Depending on how big you want it to be, you may need to print on several pieces of paper. Cut out the silhouette, this will be your stencil.

Trace the silhouette onto the black poster paper and cut it out.

Tape wax paper to cover the entire area of the window where you want to place the silhouette. Use double-sided tape to tape the black silhouette to the wax paper.

## **Halloween Silhouettes**

Cat • Spider & Spiderweb • Flying witch • Spooky tree

Haunted House • Bats • Tombstones & Ghosts
